# CARPET CARE PRODUCT LINE

GREEN OPTIONS CARPET CARE PROGRAM

## MAGIC CARPET PRE SPOTTER—GREEN OPTIONS APPROVED

Ready to use polymeric carpet spotter for use before using an extractor or shampoo. Formulated with anti-soiling technologies that effectively remove and entrap soils, spots, stains and dirt found on carpet and upholstery. Highly effective on all types of stains including blood, iodine, Kool Aid and ketchup. Unique polymer / surfactant detergent system encapsulates soils into a dry residue which enhances soil pick up during vacuuming.

## MAGIC CARPET TRAFFIC LANE CLEANER GREEN OPTIONS APPROVED

Ready to use polymeric carpet spotter for use before using an extractor or shampoo. Formulated with anti-soiling technologies that effectively remove and entrap soils, spots, stains and dirt found on carpet and upholstery. Highly effective on all types of stains including blood, iodine, Kool Aid and ketchup. Unique polymer / surfactant detergent system encapsulates soils into a dry residue which enhances soil pick up during vacuuming.

## MAGIC CARPET EXTRACTION CLEANER GREEN OPTIONS APPROVED

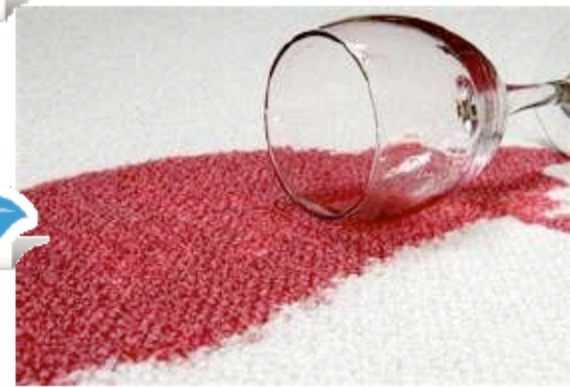

Powerful fast drying concentrated carpet extraction solution. Industrial strength formulation used by carpet cleaning professionals for cleaning all types of carpets. Strong enough to remove the hardest of soils but safe enough to not harm carpet fibers and backing. Formulated with built in de-foaming agents. Dilutes up to 1:128

## MAGIC CARPET ODOR GENIE—GREEN OPTIONS APPROVED

Residual odor control that eliminates malodors at the source by breaking down and digesting organic waste. Environmentally friendly product controls odors without the use of heavy chemicals. Contains facultative bacteria that works in environments with or without air. Available in a variety of fresh fragrances. (Lemon Grass, Spring Breeze, Plumeria, Fresh and Clean.)

## MAGIC CARPET BONNET CLEANER

Environmentally friendly bonnet carpet cleaner formulated with oxygen boosters for use with bonnet applications. Easily picks up dried on and embedded dirt, stains and soils trapping them directly on the pad. Contains anti-soiling agents to prevent stains from re-appearing on carpet fibers. Effective on both water and oil based stains and is safe for use on carpets, rugs, upholstery and other fabrics. Bonnet cleaning with Magic Carpet will raise carpet nap and leave fibers looking new.

# FLOOR CARE PRODUCT LINE

GREEN OPTIONS FLOOR CARE PROGRAM

SAVE THE PLANET

## CLEAR CHOICE FLOOR COATING- GREEN OPTIONS APPROVED

Unique Zinc Free floor coating polymer; that is designed for low maintenance application as it is extremely durable to give you highest protection against scuffing, black heel marks and dulling of the floor surface. The perfect coating for vinyl, linoleum, rubber, terrazzo, asbestos containing tile, sealed wood and cork floors.

## LEVERAGE GREEN OPTIONS APPROVED

Environmentally friendly low odor concentrated floor stripper. Can be used to remove most standard floor finishes and coatings while not harm the floor surface; its unique low odor ingredients allow it to be used in area where normal ammoniated strippers could cause problems due to the odor given off during the stripping process. It is economical to use and is free rinsing with water. Dilutes 1:20.

## ECO CLEAN HARD SURFACE CLEANER GREEN OPTINOS APPROVED

Powerful industrial degreaser concentrate that is butyl free, biodegradable and is a environmentally friendly formulation. Dissolves grease, tar, oils and tough soils quickly leaving behind no residual residues. Perfect for cleaning industrial parts, hard surfaces, concrete floors, etc. Can be used in floor machines or through pressure washing equipment. Dilutes at 1:128

## TIME SAVER HIGH SPEED BUFFING COMPOUND- GREEN OPTIONS

APPROVED FORULATION Concentrated 3 in 1 product that is used in automatic scrubbers for clean, restoring and polishing of floor finish surfaces; this buffing agent and high speed burnishing restorer that deep cleans, restores shine and protects floor finished from wearing down. Designed for use in automatic scrubber applications to repairs gloss killing scuff marks and micro-scratches while hardening the floor finishes for improved durability and soil resistance; formulated with additional solvency of natural d-limonene for improved cleaning and smoothing

**PINE JELLY CLEANER** ECO- friendly, concentrated water soluble, pine cleaner multi purpose cleaner that contains no chlorinated or butyl solvents. For use on all surfaces including floors, counter tops, equipment, etc. Non-flammable. Pleasant pine scented fragrance.

# VECHILE CARE PRODUCT LINE

GREEN OPTIONS VEHICLE CARE PROGRAM

## FINISH LINE Ultra Concentrated Pre-Soak

**GREEN OPTIONS APPROVED FORULATION** Ultra concentrated vehicle pre-soak formulated for both manual vehicle washing applications. Finish Line presoak dissolves all types of hard to remove grease and oil without harming the vehicles finish. Its formulated surfactant package quickly penetrates and loosens deposits in minutes and its suspending agents trap dirt and grime in solution so it will not redeposit back onto the vehicles surface. Finish Line is formulated for use on all types of vehicles and is formulated to work in both hard and soft water conditions. Dilutes up to 1:256

## FINISH LINE –Ultra Concentrated Wash &Wax

**GREEN OPTINOS APPROVED FORULATION**

A one product powerfully super concentrated high foaming vehicle wash and wax; Formulated with organic detergents, chelating agents and carnauba wax that is formulated to effectively suspend and emulsifies road film, oil, heavy dirt, grease, grit, tree sap, bugs and tar while leavening behind a just waxed shine. Its long lasting foam cleans and leaves vehicles spot free; Effective in both hard and soft water applications. For use in both manual and bay wash applications. Dilutes up to 1:500

## FINISH LINE –Ultra Concentrated Brush & Hard Wash

**GREEN OPTIONS APPROVED FORULATION** Ultra concentrated vehicle wash formulated for both manual and brush vehicle washing systems. Finish Line quickly removes dirt and grime from the vehicles surface while it's formulated suspending agents trap dirt and grime in solution so it will not redeposit back onto the vehicles surface. Finish Line is formulated for use on all types of vehicles and is formulated to work in both hard and soft water conditions. Dilutes up to 1:256

## FINISH LINE –Concentrated Truck & Trailer Wash

**GREEN OPTINOS APPROVED FORULATION** A powerfully high foaming concentrated truck & bus wash formulated using detergents and chelating agents that effectively suspend and emulsifies heavy road film, oil, heavy dirt, grease, grit, tree sap, bugs and tar from vehicle surfaces. Its long lasting foam cleans and leaves vehicles spot free; Effective in both hard and soft water applications; For use through foaming brush applications. Gentle on aluminum, chrome, painted surfaces, rubber, vinyl and plastic components. Dilutes up to 1:128

## FINISH LINE –Concentrated Wheel Wash

**GREEN OPTIONS APPROVED FORULATION** Ultra concentrated wheel wash is formulated to clean and brighten wheels with limited scrubbing. Finish Line wheel wash dissolves all types of hard to remove grease and oil without harming the wheels finish. Its formulated surfactant package quickly penetrates and loosens deposits in minutes and its suspending agents trap dirt and grime in solution so it will not redeposit back onto the surface. Finish Line is formulated for use on all types of wheels and is formulated to work in both hard and soft water conditions. Dilutes up to 1:256

# MULTI-PURPOSE PRODUCT LINE

GREEN OPTIONS FACILITY MAINTENANCE

## ECO CLEAN HARD SURFACE CLEANER EPA DFE APPROVED

Powerful industrial degreaser concentrate that is butyl free, biodegradable and is a environmentally friendly formulation. Dissolves grease, tar, oils and tough soils quickly leaving behind no residual residues. Perfect for cleaning industrial parts, hard surfaces, concrete floors, etc. Can be used in floor machines or through pressure washing equipment. Dilutes at 1:128

## GLOW IT

Powerful naturally formulated biodegradable solvent derived from the power of natural oranges. Quickly dissolves grease, tar, asphalt and oil on contact. For use on removing asphalt, grease tar and other soils on contact. Great for use on dumpsters, garbage trucks, waste water facilities and any location where degrease and odor control is needed. Powerful citrus aroma trap in odors and waste fumes and is perfect for use in lift station as a odor cap. USDA C-1. Dilutes 1:20.

## ORANGE SHINE

Powerful industrial Ready to use orange oil degreaser that quickly dissolves grease, tar, asphalt and oil on contact. For use on motors, generators, heavy equipment, windings, electric motors, power tools, brakes and other vapor degreasing applications. Powerful orange aroma that leaves behind a pleasant orange smell. USDA C-1.

## GREEN CHOICE

Powerful concentrated environmental industrial degreaser concentrate that is butyl free, biodegradable and is a environmentally friendly formulation. Dissolves grease, tar, oils and tough soils quickly leaving behind no residual residues. Perfect for cleaning industrial parts, hard surfaces, concrete floors, etc. Can be used in floor machines , steam cleaners or through pressure washing equipment. USDA A1. Dilutes 1:128.

**SOY SOLV** Bio based biodegradable soy oil based formulation that removes tar, grease, oil, asphalt, etc from various surfaces. Formulated using natural soy oils and emulsifiers for easy mixing and free rinsing with water. For use in industrial degreasing, to remove tar & asphalt, clean industrial parts, degrease heavy equipment and many additional applications in industrial and municipal maintenance. Economical at 64:1. USDA K-1.

# GLASS CLEANERS

## MISC. PRODUCT LINE

GREEN OPTIONS FACILITY MAINTENANCE

### SHOW IT

A powerful glass, mirror windshield and Plexiglas cleaner. Removes dirt, grime and spots without streaking. Designed for use on windows, mirrors, windshields and other glass surfaces. Also safe on polished surfaces, chrome, acrylics, Formica, polycarbonate, porcelain, stainless steel, marble, limestone, etc. USDA A-1 rated. Dilutes up to 1:128

### GLASS ONE

Ready to use environmentally friendly glass, mirror, windshield and Plexiglas cleaner. Formulated with ammonia and has a pleasant fragrance that will not effect your eyes when applying to surface. Quickly dissolves dirt, grime, fingerprints and other soils from surface. Does not smear or streak.

### 24/7 HARD SURFACE CLEANER

Powerful concentrated fast acting foaming detergent that works on contact; simply spray on and rinse off. Eliminates the need for scrubbing or pressure washing which can damage fins and coils. Removes hard water deposits, dirt, dust, scale, grease, oil, etc. Use on air conditioning units, refrigerators, heat pumps, ice machines, heat exchangers and ventilators. Promotes efficient heat transfer on coils restoring optimal efficiency and reducing cooling expense. Dilutes at 1:80

**GREEN INERTIA** Powerful industrial degreaser concentrate that is butyl free, biodegradable and is an environmentally friendly formulation. Dissolves grease, tar, oils and tough soils quickly leaving behind no residual residues. Perfect for cleaning industrial parts, hard surfaces, concrete floors, etc. Can be used in floor machines, steam cleaners or through pressure washing equipment. USDA-A1. Dilutes up to 1:256

### SUPER LEMON

Powerful industrial lemon oil degreaser that is butyl free, biodegradable and is an environmentally friendly formulation. Dissolves grease, tar, oils and tough soils quickly leaving behind no residual residues. Perfect for cleaning industrial parts, hard surfaces, concrete floors, etc. Can be used in floor machines or through pressure washing equipment. USDA A1.

**SAVE THE PLANET**

# MISC. PRODUCTS PRODUCT LINE

GREEN OPTIONS FACILITY MAINTENANCE

## ORANGE FUSION

Powerful industrial non-corrosive D-limonene solvent infused with oxygen that quickly dissolves grease, tar, asphalt, oil and other soils on contact. For use on all surfaces including floors, tables, counters, grease surfaces, tools, parts and many other applications. USDA A-1.

## BIO BLOCK

Patented solid bacteria block consisting of naturally occurring microbes that is designed to remediate fats, oils, starches and organic materials. The microbial cultures contain selective facultative bacterial stands and naturally occurring enzymes that work in both aerobic and anaerobic environments. It is effective in areas of both high and low flow areas and reduces BOD's, COD's, TSS's and FOG's.

## SOY SOLV

Bio based biodegradable tar, grease, oil and asphalt remover. Formulated using soy solvents and emulsifiers for easy mixing and free rinsing with water. For use in industrial degreasing, to remove tar & asphalt, clean industrial parts, degrease heavy equipment and many additional applications in industrial and municipal maintenance.

## ORANGE GROVE

Ready to use natural d-limonene solvent degreaser and floating odor cap; formulated with a high flash point of over 145°F that quickly solublizes grease, oils tars and asphalt. For use in general degreasing application, parts washers, asphalt remover, engine degreaser and as a floating lift station degreaser in lift stations.

## GREAT GRAPE

Ready to use solvent degreaser and floating odor cap; formulated with a high flash point of over 210°F that quickly solublizes grease, oils tars and asphalt. For use in general degreasing application, parts washers, asphalt remover, engine degreaser and as a floating lift station degreaser in lift stations. Powerful grape scent suppresses odors and waste fumes

# MISC. PRODUCTS PRODUCT LINE

GREEN OPTIONS FACILITY MAINTENANCE

## NABC

Non Acid bowl and tile cleaner that is built around an organic acid based formulation that removes oxidation, hard water spots, soap scum, mineral deposits and rust stains. For use on toilets, urinals, sinks, tile, grout, ceramic and fiberglass surface. Pleasant clean aroma leaves cleaned area with a freshly cleaned smell.

## SIERRA

Ultra concentrated laundry detergent for use in all types of commercial laundry equipment; Designed with dual action stain removes, optical brighteners and enzymes for removing embedded stains, soils, grease, etc from fabrics, linens, sheets, uniforms and even fire fighters bunker gear turnout.
